Greetings,

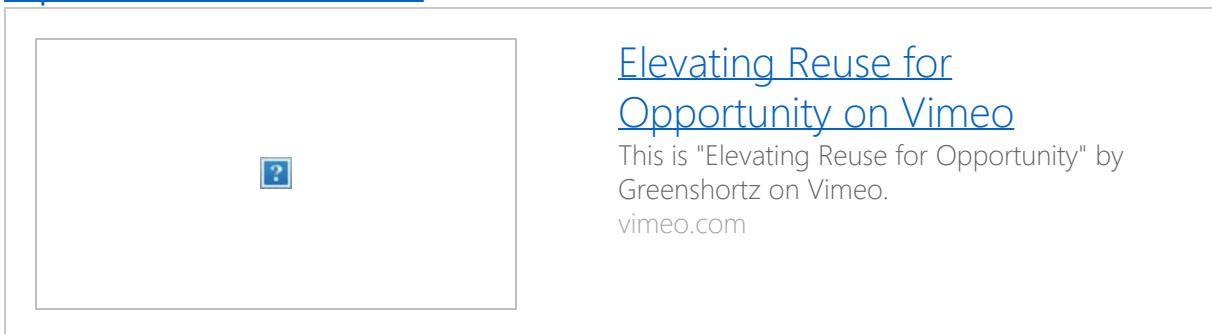

Please join us to learn more about building material reuse at two upcoming events. The Build Reuse Virtual Conference will be held Oct 18th – 20th <https://www.buildreuse.org/conference>

This multi-day conference will detail strategies and actions that enable communities to foster building material reuse now, and advance deconstruction and reuse into the future.

Also, Atlanta's Lifecycle Building Center will celebrate reuse at the Kendeda Living Building on Tuesday, October 18th. Please check out the short video and join us at the annual fundraiser to learn more.
